

REPORT ON COLOURS DAY

COLOURS COLOURS WE SEE THEM EVERY WHERE

Our world is filled with colours, A very important part of learning during Kindergarten years is identification and recognition of colours. Rainbow – “Fun days with colours” was celebrated in the month of July 2016 starting with primary colours and followed by secondary colours. Children were excited to see the display done by the teachers on every Tuesday and Thursday from 11th July to 28th July 2016.

Activity room was decorated based on the concept of **RAINBOW** with various attractive objects, toys and real things.

The curriculum is planned to enable the children to experiment with wide range of activities. Teachers and children spoke about colours during class time and they sang rhymes on colours. KG – II students showed their enthusiasm to mix paints to get secondary colours.

They painted huge kites and butterflies using sponge as group activity.

Children were given beautiful handouts like book marks, wrist watch made out of colour paper to take home.

It was an excellent learning experience for children, which will enhance their visual discrimination.
