

SCHOOL IS OUT, SCREAM AND SHOUT.....

Students of KG and Mont were treated to "A day out Programme" to one of the finest resort in Bengaluru, The Enchanting acres on 27-10-2016 and 28-10-2016, to learn and enjoy the nature to the fullest.

Following a bus ride that can be described as "rousing" (Lots of singing nursery rhymes, bouncing up and down in seats).

The children could barely contain their excitement as they were allowed to walk through the entrance gates.

Children had lovely delights for their breakfast which they enjoyed sharing together.

Children were taken to the garden area and they were divided in groups. The children spent the next few hours enjoying different activities like feeding the animals, pony ride, sponge dabbing, sowing seeds, finding fruits and vegetables in the garden and pottery.

It was an enriching and learning experience for them as they were involved in various activities.

At this point everyone had certainly worked up quite an appetite and finally the time came for the picnic lunch, where the children polished off the food in no time.

Eventually the time had come for the teachers to herd the children back to the buses to head back to the school.

Overall it was a day well spent with wonderful memories for our tiny tots and teachers too.
