

NATIONAL PUBLIC SCHOOL, KENGERI, BENGALURU Report on Career Counselling

'How can I make myself stand out against competitors?'

The hardest choices in life aren't between what is right and what's wrong but between what's right and what's best. To guide the students to make a right choice, NPS Kengeri had organized Career Counselling for students of Grade 10 on Monday, 25th September, 2023.

Mr. Shravan Shetty, the resource person started the session by triggering the thought of the students: to make a note of 3 professions they are thinking to enter in future.

Mr. Shravan Shetty emphasized on how student's interests, skills and personality would determine their future. He also guided the students to practice mental preparedness to choose their career without getting influenced by peer pressure/family pressure or any other kind of stress.

The avenues of career options with the various subjects/streams being chosen in higher grades also were briefed. A clarity regarding the subjects needed to be concentrated, on the profession chosen, was very concisely presented. Students' interaction with the resource person made the session more interesting and impactful.

The session concluded with a line to all the young minds – To know the difference between hobbies and skills and follow their passion to emerge successful.
