

National Public School, Kengeri, Bengaluru REPORT ON GRADE 8 'A' CLASS ASSEMBLY

"The future belongs to those who believe in the beauty of their dreams."

-Eleanor Roosevelt

Talent is the natural ability to do something better than most people. Talent is the information written in genes when we are born...the information which never changes in our lifetime and can only be inherited by our children. To get good results we need to practice. Even the greatest talent without practice will not give good skill. But on the other hand, even years of practice without talent will not give good results either.
