Assembly Report of Grade 6 'B'

"Festival is a time to cherish our traditions and bond with loved ones."

Festivals are an integral part of human life. They are occasions to celebrate, to express gratitude, to share joy, and to honour traditions. Festivals reflect the culture, history, and diversity of a society. They also foster social harmony, mutual respect, and national integration.

The students of Grade 6 B presented their class assembly on the topic 'Dussehra', the festival of victory of good over evil. The assembly began with a prayer song followed by a speech on the significance and history of 'Dasara Festival'. The students shared information on Dasara celebration in different parts of India and abroad with different names and rituals. They also briefed out on "Gombe Habba", which is celebrated across the world. The main attraction of the assembly was a skit based on "Saraswathi Pooja" and Examination Tips. The students enacted the roles with enthusiasm and confidence. They used colorful costumes, props and sound effects to make the skit lively and realistic.

The assembly programme served the objectives- to educate the students about the cultural and historical significance of Dasara, to foster a sense of pride and respect for the rich and diverse cultural heritage of India and its people, and to celebrate the spirit of joy, gratitude, and festivity that marks the end of the nine-day Navratri and the beginning of a new season.

The assembly was a memorable experience for all the students as it showcased their creativity, talent and teamwork. It also instilled in them a sense of pride and respect for their rich cultural heritage.
