

REPORT ON SEWA - GRADE 1 TO 5

"Sharing is the essence of happiness, caring is the foundation of humanity."

On 14th November 2024, children's day is celebrated in a unique way. Students of Grade 1 to 5 wholeheartedly involved themselves in 'Charity Drive' programme. The event aimed to instill the values of empathy, kindness, and social responsibility among primary students.

The preparation for this big day had started a week prior by collecting and segregating the essential things like grocery items, stationaries, fresh fruits and personal care products.

The visit included various activities designed to foster connection and joy. Together, they sang songs and shared laughter, bridging differences and building bonds of friendship. The trust's children participated wholeheartedly, their smiles reflecting the happiness the event brought to them.

Our students had the opportunity to learn about the lives of the children at the trust, hearing their stories and appreciating their resilience. This exposure was transformative, as it allowed the students to empathize deeply and understand the importance of sharing their blessings with those in need.

Both the students and the residents carried away fond memories and invaluable lessons. The initiative reinforced the true essence of Children's Day by promoting the values of unity, compassion, and humanity.

This experience left an indelible mark on the young students, reminding them that caring for others and sharing joy are vital steps toward building a better society.
