Report on Field trip to Lalbagh Botanical Garden

On Friday, 13th September, students of Grade 4 visited Lalbagh Botanical Garden to explore its vast plant diversity. The students enjoyed the lively bus journey to the destination, filled with excitement and anticipation.

The field trip provided a hands-on learning experience as students observed a wide variety of indigenous and exotic plants. Students learned about the ecological importance of different plant species and their roles in maintaining environmental balance.

The trip served as an extension of classroom lessons on nature, giving students a greater appreciation for biodiversity and conservation.

Overall, the visit was both educational and enriching, deepening the students' understanding of the natural world.
