REPORT ON SPECIAL ASSEMBLY -IMPACT OF DIGITALIZATION

**“The strength of the team is each individual member.
The strength of each member is the team.”**

The morning assembly on the topic of impact of digitalization was held on 12th July, 2024, in the school auditorium. The event was coordinated by Grade 5 teachers and involved the enthusiastic participation of students from grades 5. The assembly aimed to enlighten students about digitalization's importance, impact, and future in our lives.

The assembly commenced with a warm welcome speech, who emphasized the significance of digital literacy in today's world. She highlighted how digitalization is transforming education, agriculture, communication and various industries, making it a timely and relevant topic.

The presentation started with a skit that show cased how technology is useful in agriculture and education.

Following the presentation, Grade 5 performed a mime called "A Day in the Life with Digital Technology". The skit humorously depicted how digital devices, such as smartphones, tablets, and smart home devices, are integrated into our daily routines. It also touched on the importance of using technology responsibly and maintaining a healthy balance.

Students also organized a skit titled "Stay Safe Online" was performed by students of Grade 5 to raise awareness about online frauds. The skit depicted a scenario where a student, Usha, falls victim to a phishing scam despite his husband Ramesh's warnings. The skit highlighted the importance of verifying the authenticity of emails and websites, and not sharing personal information online.

Students also presented a roleplay on the advantages and disadvantages of digitalization.

The assembly concluded with closing speech by Principal mam who appreciated all the participants for their hard work and creativity. She reiterated the importance of staying informed about digital advancements and encouraged students to continue exploring and learning about technology.

The morning assembly on digitalization was a resounding success, setting a positive and enthusiastic tone for the day. It provided students with a deeper understanding of digitalization and its relevance in the modern world, inspiring them to embrace technology in a responsible and innovative manner.

The fifth-grade students enthusiastically participated in various important global observances, such as World Yoga Day, World Music Day, World Day Against Child Labour, and World Joke Day, Hellen Keller's Day.
