

## National Public School Kengeri, Bengaluru

### Report on Educational Trip- Grade 8

**“Field trips provide authentic hands on – experiential learning opportunities where students can connect what they are learning in classroom, to a real-world context.”**

On 18 June 2024, National Public School, Kengeri, Bengaluru, organized a stimulating educational trip, to the Toyota Kirloskar Eco Zone, an expansive 25- acre experiential environmental learning centre. This unique venue features seventeen educational theme parks designed to cultivate ecological awareness among young learners.

The primary objective of the trip was to deepen students understanding of environmental conservation through interactive learning experiences. Students were grouped and guided through various sections of the Eco Zone, engaging with topics such as medicinal plants, biodiversity, endangered species, and sustainable energy solutions including the solar park.

A detailed Power Point Presentation showcased diverse conservation methods and wildlife preservation strategies. This session complemented the hands-on experiences within the Eco Zone, covering theoretical insights into practical conservation efforts. Following the tours and presentations, students participated in assessments to evaluate their understanding of the environmental concepts explored. They were assigned individual and group projects aiming at application of their knowledge to propose solutions for real-world environmental challenges.

The educational trip left a profound impact on the students, fostering a deeper appreciation for biodiversity and sustainable living practices. They expressed a heightened sense of responsibility towards environmental stewardship, reflecting on their roles as conscientious global citizens.

The visit to Toyota Kirloskar Eco Zone proved instrumental in broadening the horizons of the students. It not only enriched their academic knowledge but also inspired them to actively contribute to environmental conservation efforts. This trip underscored the school commitment to holistic education by nurturing a generation of environmentally-conscious leaders. This experiential learning had a transformative impact in shaping their environmental awareness and responsibilities.
