

## **National Public School Kengeri, Bengaluru** **Report on Class assembly – Grade 10C**

*“Any sufficiently advanced technology is equivalent to magic.”*

*Digital India, an initiative that combines a large number of ideas and thoughts into a single, comprehensive vision so that each of them is seen as part of a larger goal, focuses on restructuring many existing schemes that can be implemented in a synchronized manner.*

*In a steadfast world, digitalization and technology takes centre stage in everyone's life. India is a prime example of a hub of technological development. To highlight this fact, the students of Grade 10 C conducted their class assembly on the theme, 'Digital India', in the first week of July 2024.*

*The introduction focused on the differences between e-commerce and quick commerce. On July 3, 2024, as part of a special program, a skit was performed illustrating the essence of business and commerce, particularly the rise of start-ups in the modern world. The script was filled with humorous elements, which the audience thoroughly enjoyed.*

*The assembly programme highlighted the transformation of our way of life through digitalization.*
