Report on GRADE VII B ASSEMBLY

International Mountain Day (IMD) is celebrated annually on 11 December, to raise awareness on the importance of mountains and to encourage their protection. Over centuries, mountain communities have developed solutions to adapt to their harsh environments, deal with climate change, reduce poverty and protect or restore biodiversity and ecosystems in mountain regions. International Mountain Day 2024 aims to focus on innovative solutions, fostering adaptation strategies and empowering youth for a sustainable future.

A special assembly was conducted by the students of class VII 'B' in the first week of December 2024, with the theme, "International Mountain Day". The assembly commenced by creating awareness on restoring the mountains, in which the students gave an insightful speech on the theme. A meaningful poem was recited by the students regarding the significance of the day.

The students dressed up in different attires of people living in different mountain regions and shared information about the food consumed by mountaineers. A classical dance related to the mountains, on the song 'Jogadha siri belakinalli' was presented in a graceful manner.

The assembly gave a message of exchanging knowledge, showcasing best practices and mobilizing collective action. The students spread the message that by embracing innovation, adaptation, youth empowerment, and collaborative approaches, we can pave way for a more sustainable and resilient future for mountain communities and ecosystem.
