

NATIONAL PUBLIC SCHOOL

KENGERI, BENGALURU

Green Olympiad

Students at National Public School Kengeri, Bengaluru, proudly participated in the GREEN Olympiad 2025–26 organized by The Energy and Resources Institute (TERI). The examination aimed to create awareness among students about environmental issues and sustainable development. Students from various grades enthusiastically took part in the Olympiad and showcased their knowledge about environmental conservation and sustainable practices. The exam was conducted in an MCQ format and included questions related to topics such as environment, sustainability, and Mission Life. The initiative provided students with an opportunity to enhance their understanding of environmental challenges and solutions. Participation in the Olympiad encouraged students to think responsibly about protecting nature and adopting eco-friendly practices. It also helped in developing environmental awareness among young learners. The school appreciated the students for their active participation and interest in promoting a sustainable future.

“Nature is not a place to visit. It is home.” – Gary Snyder
