Report on Field Trip to Nagarbhavi Fire Station

Grade IV

*On 22nd August 2025, the students of Grade IV visited the Nagarbhavi Fire Station. The firefighters welcomed the students warmly and explained the different ways to put out solid, liquid, and metal fires. They also gave us useful safety tips. The highlight of the trip was a live demonstration with water sprinklers, which the children watched with great excitement. It was an informative and memorable experience for everyone.*
