

# NATIONAL PUBLIC SCHOOL KENGARI, BENGALURU

**DAY'S SIGNIFICANCE: WORLD CHIMPANZEE DAY**

**DATE: 14 JULY 2025**

World Chimpanzee Day is observed every year on July 14 to spread awareness about the importance of protecting chimpanzees and their natural habitats. The day also reminds us that chimpanzees are our closest relatives in the animal kingdom and play a vital role in maintaining the balance of forests and nature.

On Chimpanzee Day, the students of grade 2B sang a beautiful song to celebrate these intelligent animals. The song highlighted how chimpanzees live in forests, how they are similar to humans, and why they need to be protected.

Through their performance, the students spread the message of love for animals and the importance of saving wildlife.
