## Report on Grade 5B Assembly

**“Gratitude is the fairest blossom which springs from the soul.”**

A special assembly on the theme "Gratitude" was conducted on 27.6.25 by the students of Grade 5B at National Public School, Kengeri. The purpose of the assembly was to help students understand the importance of being thankful and to express appreciation for the people and things around them.

The assembly began with a soulful prayer song followed by the pledge and thought of the day, which emphasized the power of gratitude in daily life. Students presented News of the day and new word which helped students stay updated with current happenings and helped students to enrich their vocabulary. The highlight of the assembly was a heart-touching skit performed by the students. The skit portrayed the story of a young girl who learns to appreciate the small efforts made by her grandmother. Through various scenes, the skit beautifully conveyed how saying "thank you" and recognizing the efforts of others can make a big difference.

Following the skit, a melodious song on gratitude was sung by students. The lyrics conveyed thankfulness towards all those who contribute positively to our lives. The song created a warm and emotional atmosphere among the audience.

The assembly was a meaningful and memorable experience that left a lasting impression on both students and teachers. It served as a gentle reminder that being grateful is a simple but powerful way to bring positivity into our lives.
