

NATIONAL PUBLIC SCHOOL KENGERI, BENGALURU
REPORT ON YUVI PEP- PARENT ORIENTATION

*“Education is not the learning of facts, but the training of the mind to think.”
– Albert Einstein.*

The YUVI PEP Parents Orientation Program was held on 12th June 2025, for the parents of Grades 7 and 8. The purpose of the session was to introduce the YUVI PEP Innovation Program, which helps students become young innovators through hands-on learning.

The event started with a warm welcome and an introduction about the importance of preparing students for the future, using creative and practical learning methods. It was attended by Principal Ms. Geeta Dikshit, Vice Principal Ms. Suman Singh, and Program Co-Ordinator Ms. Malini, whose support made the session even more meaningful.

Mr. Nithin, a mentor from the YUVI PEP team, led the session with a clear and informative presentation. He was joined by Mr. Bharat (co-mentor) and Mr. Rahul (resource person), who also shared their insights. To help parents understand the program better, different models and magazines were displayed. These showed how the program teaches skills in Coding, Robotics, Automation, AI, Mechatronics, and more. The mentor used these tools to explain how students will learn by doing.

Grade 8 students who took part in the session, showed their excitement and helping parents visualize the program's nuances. The mentors also talked about weekly online quizzes, featuring winners in a special magazine. Students who participated consistently would have a chance to join internships for real-world experience.

At the end, an open discussion allowed parents to ask questions, which Mr. Nithin answered clearly. The session ended with a heartfelt thank, highlighting the value of hands-on learning and future-ready skills for students.
