### *Report on Grade 8 Trip*

*The students of Grade 8 embarked on an exciting overnight experiential learning trip to Area 83 Resort on the 16th and 17th of October 2025. This unique initiative aimed to extend education beyond the confines of textbooks and classrooms, providing students with opportunities to develop confidence, resilience, and teamwork in a natural and engaging environment. The serene surroundings of Area 83, coupled with its adventure-based learning setup, offered the perfect backdrop for this enriching experience.*

*The camp was thoughtfully designed to integrate fun with purposeful learning. Students participated enthusiastically in a range of outdoor activities such as Giant Swing, Archery Tag, Bubble Soccer, Outdoor Camping, Campfire Music, and Survival Training. Each activity was supervised by trained instructors, ensuring safety while encouraging students to challenge themselves and step out of their comfort zones. Through these adventures, they learnt the values of team spirit, problem-solving, courage, and adaptability, fostering a strong sense of self and community.*

*The overnight stay added an element of excitement and bonding among peers. The campfire evening, filled with music and laughter, was a highlight—strengthening friendships and creating lasting memories. By the end of the trip, the students returned with newfound confidence, enthusiasm, and an appreciation for experiential learning. The trip to Area 83 truly succeeded in blending education with recreation, leaving a lasting impression on both students and accompanying teachers.*
