

NATIONAL PUBLIC SCHOOL KENGERI, BENGALURU
REPORT ON GRADE 10 A CLASS ASSEMBLY

World Turtle Day is observed every year on May 23rd to celebrate and protect turtles and tortoises and their disappearing habitats, as well as to encourage human action to help them survive and thrive.

The students of Grade 10 A conducted a three-day special assembly in the last week of May 2025, to mark World Turtle Day. They shared the significance of the day and its relevance in today's environmental scenario. An engaging panel discussion titled "Koffee with Ananth" discussed the difference between turtles and tortoises, their habitats, lifestyles, and the challenges they face in the wild. The interactive format captured the attention of the audience and created curiosity among the students.

A quiz conducted based on the facts and information shared during the panel discussion, not only reinforced learning but also encouraged active participation and teamwork among the students. The excitement and competitive spirit added an element of fun while deepening awareness towards our habitat. A thought-provoking skit focused on the urgent need to protect turtles and their marine habitats. Through powerful performances and dialogues, the skit highlighted human actions that threatened turtle population and underscored the role each individual can play in conservation efforts.

The assembly concluded with a heartfelt message: "Save Turtles, Save the Environment", leaving the audience inspired and aware of their responsibility towards nature. The three-day presentation was not only educational but also deeply impactful, successfully instilling a sense of environmental consciousness in all who attended.
