

NATIONAL PUBLIC SCHOOL KENGERI, BENGALURU
REPORT ON GRADE 10 C CLASS ASSEMBLY

“Oceans are not mere bodies of water; they are the source of life on earth “

The students of Grade 10 C presented their class assembly in the last week of May 2025, on the topic, ‘World Ocean Day’. The assembly programme filled with creative and meaningful performances aimed at raising awareness about ocean conservation. It served as a powerful reminder of the vital role oceans play in sustaining life on Earth and the urgent need to protect them.

The students presented an engaging skit that highlighted the significance of World Ocean Day and the current threats faced by marine ecosystems, such as pollution, overfishing, and climate change. Through a blend of acting and narration, the skit effectively conveyed the message of environmental responsibility. The performances continued with a thought-provoking dance that artistically portrayed the beauty of the oceans and the harm caused by human negligence. The dance encouraged the audience to reflect on their own actions and inspired a sense of responsibility toward marine preservation. A street play which focused on practical steps to conserve oceans and protect aquatic life, emphasized the importance of reducing plastic use, managing waste properly, and making conscious efforts to preserve marine biodiversity. The play delivered a strong, clear message in an engaging format that resonated with all students.

The presentation successfully combined education with performance to instill awareness and responsibility among the student body. It was a creative and impactful way to celebrate World Ocean Day and encourage a culture of sustainability and care for our planet’s oceans.
