

NATIONAL PUBLIC SCHOOL KENGERI, BENGALURU

REPORT ON GRADE 6 D CLASS ASSEMBLY

The students of Grade VI D organised their class assembly in the second week of February, 2026, on the topic, 'International Day of Women and Girls in Science'. The event showcased the students' creativity, talent and appreciation for the achievements of great women in science.

The students presented a skit titled, 'Marie Curie, A Trailblazer'. The skit effectively conveyed how her determination broke barriers. They narrated the story of Dr. Asima Chatterjee, the first woman from India to earn a doctorate in science. This was followed by a graceful classical dance performance dedicated to the women and girls in science.

The assembly concluded with a self-composed poem recitation by one of the students, beautifully expressing admiration for women in science. This was followed by 'Future Me', presented by two girls, where they imagined themselves as a scientist and doctor, contributing to society. Their presentation left the audience motivated and hopeful.

The students participated enthusiastically and made it a great success.
