

## **World Elephant Day**

The school observed World Elephant Day on August 12 with great enthusiasm during the morning assembly. The programme aimed to create awareness about the vital role of elephants and the importance of their protection and conservation.

The assembly commenced with a morning prayer, thought for the day, news reading, and a new word, followed by an informative introduction highlighting the significance of World Elephant Day. Students enthusiastically shared interesting facts about elephants and spoke about their importance to the environment and their contribution to human life.

The programme was both informative and engaging, fostering a sense of environmental responsibility among the students. It encouraged them to develop compassion towards elephants and understand the importance of protecting wildlife and their natural habitats.
