## Assembly Report – Small Steps, Big Difference

The morning assembly on 29 October 2026 was conducted on the theme "Small Steps, Big Difference", highlighting how small, positive actions can bring about meaningful changes in our lives and surroundings.

The assembly began with an inspiring thought, followed by the news headlines and Word Study, enriching students' knowledge and vocabulary.

A special assembly was then presented by the students, focusing on five simple yet meaningful ways to make a difference:

- Save Electricity – Switch off lights and fans when not in use.
- Keep It Clean – Maintain cleanliness and keep our surroundings tidy.
- Don't Waste Food – Respect Food – Value food and avoid wasting it.
- Plant and Protect Trees – Care for trees and contribute towards a greener environment.
- Be Kind and Help Others – Spread kindness through caring and helpful actions.

The assembly concluded with a collective pledge in which the students promised to practise these simple habits in their daily lives and work together to create a positive change.

The assembly beautifully conveyed the message that every small step count, and when we come together, our little efforts can make a big difference!
