Report on Grade 12 A B Class Assembly

"Darkness is not the end of the journey; it is the path that leads us to the light."

The students of Grade XII A and B students conducted a thought-provoking assembly on the theme "Amavasya – From Darkness to Light" in the second week of July 2026. Each day explored a different aspect of Amavasya, blending meaningful messages with engaging performances.

The students portrayed the white and dark traits of human nature by dressing in those colours. Through powerful presentations, they conveyed that the dark phases of life are never permanent. Instead, they serve as valuable learning experiences that help individuals grow stronger and move towards a brighter future. The assembly encouraged everyone to face challenges with hope and resilience rather than despair.

The assembly programme focused on the superstitions associated with Amavasya. Through a series of short skits, the students depicted common beliefs such as avoiding signing important documents or cutting nails at night. The highlight of the programme was the appearance of two "ancestors," who humorously explained the practical reasons behind these customs, such as the absence of electricity in earlier times. This helped the audience understand how many superstitions originated from genuine safety concerns.

The students also presented a lively stand-up comedy based on the amusing superstitions still followed in many households, especially by mothers and grandmothers. Filled with humour and relatable moments, the performance entertained the audience while gently encouraging them to distinguish between tradition and blind belief. The assembly programme successfully inspired students to think critically, appreciate cultural practices, and embrace positivity with an open mind.
