Report on Grade 9 B Class Assembly

The students of Grade 9 B conducted their assembly program in the third week of June 2026, to observe “World Elder Abuse Awareness Day” and spread awareness about the importance of respecting and caring for elderly people.

The assembly began with an informative presentation on the significance of World Elder Abuse Awareness Day. The students explained the different forms of elder abuse, its impact on senior citizens, and the need to create a safe, caring, and respectful environment for the elderly people. The session encouraged everyone to value the wisdom and contributions of older generations. They also presented a meaningful song highlighting the importance of love, care, and gratitude towards grandparents and elderly family members. The song conveyed a powerful message about treating elders with kindness and ensuring they feel respected and valued. The programme also featured a thought-provoking skit titled “Before It's Too Late”. The skit portrayed children ignoring and neglecting their grandparents, taking their presence for granted. The performance effectively conveyed the message that we should cherish, respect, and spend time with our elders while they are with us, rather than realizing their importance after they are gone.

The assembly programme successfully raised awareness about elder abuse and emphasized the importance of compassion, respect, and care for senior citizens. The program left a lasting impact on the audience and inspired students to strengthen their relationships with their elders and contribute to a more caring society.
