## CLASS ACTIVITY - REPORT

**Academic Year 2018 - 19**  
**GRADE -VII 'B'**

**“Road sense is the offspring of courtesy and the parent of safety”.**

Traffic Laws are designed to protect us and other drivers on the road. By knowing the rules of the road, practicing good driving skills and generally taking care as a road user, we play a vital role in preventing a crash. Practicing road safety measures is very good and safe to all people.

According to the statistics (World Health Organization, 2008), it is found that most of the hospitalization cases and leading cause of death are because of the road trauma.

The students of Grade VII 'B' reiterated the importance of following **traffic rules** by both **pedestrians** as well as **vehicle users** through a well woven and enacted skit.

The various day-to-day traffic related issues like using mobile phones while driving and walking on the road, wheeling, over speeding, and listening to music using headphones while using road, were enacted effectively by the students of the class. Each problem focused in the skit accompanied with suitable solutions to it. The usage of appropriate props for each issue made the skit more interesting and informative. The skit ended with a pledge taken by all the students to follow the traffic rules sincerely throughout their lives.

The students' efforts in addressing the issue was applauded by the audience and they had lots of vital information to carry back home.

**“Safe Driving, Saves Lives. Start Early Drive Slowly Reach Safely.”**
