

Report on The Event - 'Little Entrepreneur'

"Helping one person might not change the whole world,
but it could change the world for one person"

With the same thought our NPS Kengeri had organized the event '**LITTLE ENTREPRENEUR**' for our young achievers, to inculcate the gentle art of caring and sharing on **23rd and 24th November 2018** in our school premises.

The preparations for the craft exhibition had begun a month earlier, where our children under the supervision of craft teachers, enthusiastically designed various handicrafts such as rangoli designs, photo frames, wall hangings and many more.

These products were showcased in our art exhibition stalls, where the parents not only appreciated but also purchased the products for the noble cause.

The entire amount collected through this art exhibition was donated to '**SNEHAJYOTHI ORPHANAGE**'.

It was a proud and happy moment for each one of us to be associated with this virtuous cause.

We thank our management for their support and all the parents for their overwhelming response for making this event a successful one.
