

REPORT ON WELCOME DAY

The first day at school, where their schooling begins plays an important role in child's life.

National Public School Kengeri had organized "WELCOME DAY" on Thursday 28th June 2018, to create a positive impact, comfort and eagerness for Nursery and Mont. children to come to school happily.

The stage was decked up with cutouts of cartoon characters and colourful balloons to make the event more attractive.

Students of KG and Mont. exhibited their talent using the props and foot tapping performances and groovy moves.

Nursery and Mont I champs were engrossed by their lovely performance and attractive props. The students excitement was seen on their cheerful faces as they were eager to join the performing troops.

The Principal Madam interacted with Nursery and Mont. children. She expressed her appreciation about students' performance and was delighted by their patient view and co-operation throughout.

At the end of the event KG II and Mont III students presented "SMILEE" handouts to welcome our new explorers of NPS and they took the responsibility to accompany them to their respective classes.

Overall the event laid a platform to create a bonding between students, teachers and our dear new upcoming stars.
