

NATIONAL PUBLIC SCHOOL

Kengeri, Bengaluru.

Instructive Outing

Educational trips are something that connects classroom learning to that of some practical experience through which children are able to relate and understand the concepts better.

One such trip was conducted by **NATIONAL PUBLIC SCHOOL, Kengeri** on 2nd August 2019.

Children of Grade IV and V were clubbed in and taken to a nursery named 'Garden Care' in Yelahanka.

The nursery, consisted of lush greenery ranging from small saplings to big, with beautiful plants. The plants displayed were moon cactus, anthuriums, and fern etc. There were some plants that could facilitate in some kitchen gardening like that of guava, pomegranate plants and a few others.

The children enjoyed the journey to the nursery and were able to identify the very primitive saplings to a grown up plants bearing flowers, fruits and vegetables with a lot of enthusiasm and curiosity. Overall, the experience of visiting a beautiful nursery like Garden Care was an enriching and a nourishing experience that connected the students and the teacher to the nature.
