

# **NATIONAL PUBLIC SCHOOL, Kengeri, Bengaluru**

## **ASSEMBLY REPORT**

**Academic Year 2019 - 20**

**GRADE-VI 'A'**

**'If you save the Tiger, so you save the planet – and you save yourself.'**

The students of Grade 6A presented a week long assembly on the topic **'SAVE TIGER'**, from 29<sup>th</sup> July to 3<sup>rd</sup> August, 2019. Through the assembly the students conveyed the message that by saving tigers, the top predator of any food chain, we also save the entire spectrum of life. Their reducing number over the past few decades has triggered the government authorities to take few steps to protect and conserve them.

The students shared the various reasons for the causes of its decline- like poaching, eco journeys, deforestation etc. and what can be done to protect the big cats. They also were able to share the latest news about the increase in the number of tiger population in our country India, as announced by our Prime Minister, Narendra Modi. They also conveyed that our country, India is a home to over half the world's tiger population. And thus we as the responsible and young citizens of India can also be a part of this project 'Save Tigers' by spreading awareness about the same.

The students also presented a small skit which took the audience to the future '2525' where the people are more tech savvy and have no greenery around and how the humans are suffering after our big cats have become extinct.

We now have a veritable army of young population to spread its awareness.
