

Report on National Science Day

"National Science Day"
is commemorated in
the honors of
Sir C.V.Raman
for his legacy, who
discovered Raman
effect on 28th
Feb. 1928.

"Science is organized knowledge. Wisdom is organized life."

To accelerate the spirit of budding innovators and intellectuals NPS Kengeri celebrated National Science day on 28th February 2020. Students from Grade V-VIII were a part of this celebration. The Principal, Mrs. Geeta Dikshit, Coordinators Mrs. Suman Singh and Mrs. Geetha C graced the occasion.

The Department of Science had organised Science oriented programmes which was an eye opener to foster their scientific thinking with the main objective of instilling scientific temperament amongst students.

The first skit was 'BABA Science' aimed to make students to have a scientific look with logical reasoning. This was an effort to make students conscious about 'BLACK MAGIC'. A fantabulous song was composed on molecules that received applaud from everyone. 'Innovations is the need of the hour'. To make students expose to new technologies the Artificial intelligence team presented an innovative model that could sense based on the stimulus. Robotics team presented a space related skit-'Puraagyan' shedding light into its application in day to day life situations.

India has made its way through their space research .To commemorate Sri Vikram Sara Bai (Father of Space research). A grand finale skit depicting ISRO's achievements in the satellite launching was enacted by the students with patriotic spirit.

Principal Mrs. Geeta Dikshit speaking on the occasion urged students to think beyond and to be outstanding. She also said, "Science is observation, Science is innovation and Science should become an obsession".

The Whole programme came to an end with Vote of thanks. Indeed the science day 2020 festooned the entire corridors of the school depicting the theme 'WOMEN IN SCIENCE'.
