REPORT ON CLASS ASSEMBLY

GRADE 6A

“Practice makes perfect, permanent, progressive learning.”

Consistency, perseverance, and deliberate practice are 3 values that delivers success. Keeping in view of these ideas assembly was presented, to inspire and kindle the fire among students to take on success steps with a few strategies being unveiled.

*As a gratitude to thank the teachers, “Gurustotram-Akandamandalakaram” was recited (14 stanza Sanskrit shloka). The vibrations of shloka chanting for 8 minutes continuously gave a positive pulse among the children, the entire campus was in full aura of Sanskrit. It’s a **GURU NAMAN.***

Chanting Sanskrit shlokas makes mind activate positively, thinking becomes sharp, also brings in patience within everyone. Hence practice and patience work simultaneously.

A skilful dancer was never an expert at the beginning, it is the attitude of not giving up that has given them dignity. To relate the quote,

“Experience is the best teacher, it gives test first and lessons later.”

Always practising, focussing and concentrating on efforts rather than seeking results or scores, yields permanent learning.

The students chanted OM in chorus which created an aura with vibrations. Students mentioned that, if chanting of OM is done with Brahamari pranayama, it is most beneficial.

Finally, it’s all in sync with our school moto, Reach out Reach high Reach beyond, made the assembly more meaningful. Students had practiced in the class as a part of experience and hence presented the assembly.
