

## NATIONAL PUBLIC SCHOOL, KENGERI, BENGALURU

### REPORT ON CLASS ASSEMBLY

#### GRADE 6D

*"The essence of science is independent thinking, hard work, and not equipment."*

*– C.V. RAMAN*

28th February is celebrated as National Science Day in India since 1928. This day is celebrated to mark the discovery of the Raman Effect by Sir C.V Raman in 1928, the renowned Indian physicist. For the discovery, he was also awarded with Nobel Prize in physics in 1930. This day was designated by National Council for Science and Technology Communication to commemorate this achievement.

With this thought, the students of Grade VI D conducted assembly on 25<sup>th</sup> February, 2023 to the topic National science day.

The main motto of giving out this enormous information to spread a message about the importance of science used in the daily life. To display all the activities, efforts and achievements in the field of science for human welfare.

Primary objective is to ignite an interest in science, inspire students, to study Science because it is integral to significant and inescapable aspects of modern life.

The students presented a speech about C.V. RAMAN, his discovery of Raman Effect and also about his contributions to science field. They also enlightened all with more information about ISRO and milestone of ISRO of each decade. Students participated enthusiastically.

*"The study of science opens accurate knowledge about "how physical and biological processes maintain life, and how humans affect nature."*
