

NATIONAL PUBLIC SCHOOL

KENGERI, BENGALURU

Report on field trip to Visvesvaraya Industrial and Technical Museum

Field Trip!

Grade 4 & 5

“Nothing beats an exciting hands-on experience to deepens learning. The magic of a field trip isn’t just the subject. It’s the break in routine and adventure that open up children’s minds to new things.”

Field trips are part of the curriculum and are meant to expose students to their actual and practical field of work where they visit different industries, museums and projects. As part of the science learning, an educational trip was organized by National Public School, Kengeri for students of grade 4 and 5 to Visvesvaraya Industrial and Technical Museum accompanied by teachers on 1st September 2022, Thursday.

Students explored various machines and made connections with personal knowledge and hands-on learning experience in fun way. They observed different kinds of simple machine, magnets, gravitational forces and space. They got a wonderful opportunity to understand that Science is fun. They were actively interacting with the teachers and tried exploring around the museum.

The trip to gain first-hand knowledge away from the classroom, in the museum was successful. Children had lots of interaction along with fun filled experiences which they shared with their teachers and class mates. This field trip was very much liked by the students who could gain knowledge at same time had memorable time with their friends and teachers.
