

NATIONAL PUBLIC SCHOOL

KENGERI, BENGALURU

The students of grade X “A” presented their class activity on 4th August 2016. This was a platform to showcase their talents.

The topic was **“INTERNATIONAL YEAR OF PULSES”**

2016 was declared as the year of pulses

The hope of 2016 international year of pulses is to position pulses as a primary source of proteins and other essential nutrients.

The program began with the introduction about the topic followed by a beautiful mime which took the audience through the whole process a farmer goes through to grow and sell pulses and the challenges he comes across in this whole process

Next, the students presented a skit about the benefits of pulses and the problems caused by its deficiency in one’s diet.

This was followed by the statistics relating to growth and use of various types of pulses throughout the world.

To the end of the program, the students summarised about the benefits of pulses in a person’s diet and also about the diseases caused by their deficiency.

Finally the students concluded the program by thanking our Principal, coordinator, teachers and their friends for their support and guidance.
