

ASSEMBLY ACTIVITY

Class: 5 A

Date: 1st August to 6th August 2016

Class: 5A students started the assembly by inspiring quote.

“Life is mathematics,

Add friends, Subtract enemies,

Multiply joys, Divide sorrows.”

The theme of assembly was “A friend in need is a friend in deed,”the proverb stands as a touch stone of true friendship .Various quotes about friendship were told daily. A true friend stands by the trouble to help out, a scene was performed to narrate the true friendship, depicting the examples of Krishna and Kuchela, Duryodhana and Karna, Rama and Sugreva.

Further the friendship in nature was displayed, plants and trees are our best friend, the trees, sun, water, are in friendship cycle that is **“WATERCYCLE”**.

Thus the theme friend in need, not only shows the nature of true friend but also offers a method of choosing good friend.

To compile the necessity of friendship in nature, students concluded the assembly with a song,

Give me some sunshine, Give me some rain,

Give me a chance to grow up in a healthy way,

To blow up oxygen and reap out a fruit, For ever and ever again.

The assembly performance gave a zeal for a true friendship, aptly for the friendship day celebrated in the week.
