A Day out for Nursery & KG I

Our students of Nursery, Mont-I , KG-I and Mont- II were treated to a day out program at one of the most child friendly resorts in Bangalore, The Enchanting Acres on to learn and enjoy the nature.

During the short bus ride, there was lots of singing rhymes and bouncing up & down in the seats. Children were enthralled and excited to walk through the entrance gates to explore the beauty of nature. They loved the refreshments/ breakfast provided and shared it together. Children were taken to the garden area and there were interesting activities like feeding the fish and other animals like cow, rabbit, horse, ducks and hen. It was an enriching experience for them as they saw variety of farm animals.

They sportively played few games like finding fruits and vegetable in the lawn, sowing seed activity and pottery. They were all taken around to witness how vegetables were grown, which was very informative. The little ones were also given an opportunity to portray their artistic talent through spray painting activity. The highlight of the day was when each child was given a chance to go on a pony ride. They were all very excited and overwhelmed by this activity.

The children tasted healthy and yummy delicacies for the picnic lunch where they polished off their plates in no time. Overall, it was a day well spent which has definitely given our students many memories to cherish as it was their first ever school trip.
