

REPORT ON EDUCATIONAL TRIP

FOR GRADE 1 & 2

'Excitement is a mixture of Enthusiasm, Motivation, Intuition and a hint of Creativity'.

It was an excitement, Tuesday morning 28th August 2017 at NPS. The children were excited and filled with anxiety as the occasion for this was the visit to a *Chocolate Factory* which is located at Hebudi near to Electronic city, "*GARUDA FOOD PRODUCTS LTD.*". An educational trip meticulously planned by our Principal.

Children's enthusiasm was quivered by the introductory video which explained the growth and development of the factory and also about their vision which tickled the children's intuition and aroused their anxiety to know the actual process involved in the production of chocolates and they got some clarity when they saw the machines, the chocolates sailing on endless waves of conveyor belts and got the detailed explanation by the guide on the production. This motivated them to tell their moms' to prepare chocolates at home. At the end on the way back to school each one had their own stories to tell on their trip.

Thus, the day was a mixture of Enthusiasm, Motivation, Intuition and a hint of creativity this was the perfect start to the Educational trips this year. As they say well begun is half done! Plans are on far a whole lot of fun still for the kids, and well, you shall see!!!
