REPORT ON ENGLISH CLUB FOR THE ACADEMIC YEAR 2016-17

LITERARY QUILLS

'A simple act of caring, creates an endless ripple.' The students of Grade 3-5 were grouped together into different clubs and 'The Forging Onus' (the Forty One) student members of English Club – Literary Quills took initiative in conducting the club presentation.

All the member teachers had involved enthusiastically in the process of presenting the whole programme. The programme started with reinforcing the objectives of the club.

A few students had designed a costume to depict 'English Language Personified' and had a series of information presented right from the origin of the English Language, a Flag Walk of countries that use English officially, followed by the different types of poems like, the odes, sonnets, limerick etc. The tongue twister 'I thought, I thought, I thought' left the audience with chuckle and wonder stuck. The club presentation ended with the pun skit on the usage of the tricky O-U-G-H words that was INFORENTATIVE (informative plus entertaining).

This was a humble attempt from the member students to project a few drops from the ocean of Literature.
