

NATIONAL PUBLIC SCHOOL

KENGERI, BENGALURU.

REPORT ON

14th & 15th December 2017

'In every walk with nature, one receives far more than he seeks'.

National Public School, Kengeri believes that their students to give a holistic approach towards life. Believing in the spirit of Adventure, students of classes **IX & X** were taken on an adventure trip to the pristine rock hill of Ramanagara under the able supervision of the **Camp Fire Resort** group. One hundred five students from the school started their journey on **14th December, 2017** with their packed bags to face the best experience of their life.

What a breath-taking view the campsite was! Students were delighted to see their tents all lined up in the lush green ambience. The trainers immediately introduced the students to the rules of the camping and students were given refreshments to energize themselves. And there was no turning back, students found themselves engrossed throughout the day in various physical activities in which they came to know about their own strengths and weaknesses. Students enjoyed and involved themselves in performing certain activities like Rappelling, Zip line and Trekking, which tested their courage and skills. Fun activities like Rain Dance, Bonfire and Dancing always elevated their entertainment quotient.

Students felt each activity proved to be very close to the nature and brought them face to face with their inner selves. Each hectic part of the day was followed by a sumptuous meal which kept the students energized.

The sunsets at camp were reflection time for few students as they recorded their experiences and even captured few striking objects to relive their memories later.

On **15th December, 2017** morning bags were packed with heavy hearts, no one willing to leave the scenic camp site but with a hope & promise to be at the next field trip at the earliest. The trip instilled in our students the need to respect our resources, to become physically active and mentally alert. They relived the tagline of the adventure trip - that every adventure starts with "I CANNOT" but ends with an "I DID" just by doing it, our students came back content and all the more rearing to go. Indeed it was a pleasant experience, still afresh in one's mind

"Enjoy the little things in life.... for one day you'll look back and realize they were the big things."
