

REPORT ON SCIENCE CLUB
FOR THE ACADEMIC YEAR 2016-17

Activity - 1 : Collage work on medicinal plants

Objective : To learn importance of medicinal plants.

Teacher explained the importance of medicinal plants. She brought few medicinal plants to the class which are familiar to the students. Students are divided into groups and asked to do the collage work on the coloured chart paper. Students enjoyed doing the activity and learnt about the medicinal plants.

Activity - 2 : Salad Preparation

Objective : To encourage children to eat healthy food.

Children are asked to bring salad for the short break. Students enjoyed eating salads. Teachers explained the importance of healthy food and discussed the various methods of salad preparation.
