

REPORT ON MATH CLUB
FOR THE ACADEMIC YEAR 2016-17

RAMANUJAN

NPS Kengeri initiated the 'Math Club – Ramanujan' to supplement the teaching of Mathematics in the class room and also to widen the knowledge of the students of Grade-2 in this regard.

The student members learnt the coding and decoding of alphabet and numbers. They used different shaped origami sheets and created human figures and objects that they are familiar with in a group activity. Students showed excitement and participated actively.
