REPORT ON MEHENDI DESIGNING ON 06-01-2017

Mehendi designing is an ancient art form and now with the changing times even this art form has evolved so much.

To test out students designing skills we conducted the mehendi designing competition for grade 6 to 10 on 06-01-2017. Students drew the designs on their palm impression / outline on a drawing sheet.

The response from the students surprised us. The creative designs included the traditional patterns, peacock, creepers, flowers, mango designs etc., along with latest cartoon characters, designs based on themes such as save trees. Some students created unique abstract and Geometrical patterns.

The involvement, creativity, patience and concentration of the students towards the intricate drawing / designing work were appreciable. Students were judged on the basis of - innovative ideas, creativity, design and skill, presentation.
