REPORT ON QUILLING ACTIVITY

“A PIECE OF ART HAS A TRANQUILISING EFFECT ON THE SOUL”

Quilling or paper filigree is an art form that involves the use of strips of paper that are rolled, shaped, and glued together to create decorative designs.

Art is not what you see, but what you make others see.

Students of grade 6-10 kept the same spirit in their mind and enthusiastically participated in the Quilling activity which a part of Co-curricular Activity held on 8th August 2017

This activity provided the students a platform to exhibit their aesthetic skills and creativity through greeting card or photo frame dedicated to their loved ones.

The creativity was at its zenith.

The colour combinations, the patterns and the designs left the judges flabbergasted.

Innovations were unleashed by the participants.
