

**QUIZ COMPETITION ON MULTIPLE INTELLIGENCE
FOR GRADE – III TO V CONDUCTED ON 02-02-2017**

‘Should we play to our strength? OR bow to our weakness?’ It’s not how smart one is; its how one is smart was the inspiration for the Quiz Competition on Multiple Intelligence for Grade III to V. This created a new dimension in the quizzing world.

The quiz topic was based on the eight Multiple Intelligence by Howard Gardener. One student each from grade III to V was teamed up together and had a rally of visual, auditory, tangram, dumb charade and many logical and analytical rounds. Students were very eager and interested all through the competition. The students in the audience had an opportunity to identify their area of intelligence as a song on Multiple Intelligence was played as well. The Quiz paved way for a lot of revelation of individual and peer strengths and intelligences.
